

The 2011 Wish List

The Wish List is a compilation of the best unproduced, *unwritten* screenplays in Hollywood.

The second annual list is determined based on a comprehensive voting process involving a tribunal of studio development executives, the BCS computer ranking algorithm, the United States Electoral College, and Sharon Osbourne.

Please remember, **The Wish List** is *not* a "best of" list. It is, at best, a "waste of the next few minutes of your life."

Enjoy.
